

SANTHOSH BALAMURUGAN

Full Stack Java Developer | React.js · Spring Boot · REST API
+91 9345897419 | santhoshb1503@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Java Developer with hands-on experience in Java, Spring Boot, Spring Security, React.js, MySQL, REST API development, and fullstack web applications. And delivered two production-grade projects reducing manual workload. Proficient in Java, Spring Boot, JavaScript, MySQL, and Strong understanding of OOP, Data Structures & Algorithms, SQL databases, MVC architecture, and software development lifecycle. Passionate about backend development, problem-solving, and building scalable Java-based applications. Quick learner with a strong interest in Microservices, Hibernate, JPA, and modern software engineering practices. Seeking an entry-level Software Engineer role to contribute to high-impact product teams.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Responsive Web Design

Backend: Spring Boot, Spring MVC, Spring Security, REST APIs, JWT Authentication, Microservices Architecture

Database: MySQL, SQL Query Optimization, JPA, Hibernate

DevOps & Tools: Git, GitHub, Docker (fundamentals), Postman, VS Code, Maven, Windows, Linux (Basic)

Concepts: Agile/Scrum, OOP, Data Structures & Algorithms, Problem Solving, Operating System Fundamentals, Computer Networks (HTTP, DNS, IP Basics), MVC Architecture, Unit Testing (JUnit Basics), API Integration, Software Development Life Cycle (SDLC)

Learning: Kubernetes, CI/CD Pipelines, Apache Kafka, AWS Cloud Fundamentals

PROJECTS

EduDoc Recovery System | React.js, Spring Boot, Spring Security, MySQL, JWT, Tailwind CSS | [\[GitHub\]](#)

- Designed and developed a full-stack document management system that digitized student document requests, reducing manual processing by **90%**.
- Developed responsive user interfaces using **React.js, JavaScript, and Tailwind CSS**, improving user experience and accessibility across devices.
- Built secure **REST APIs** using **Spring Boot, Spring Security, and JWT Authentication**, ensuring protected access to application resources.
- Built a React.js admin dashboard with real-time request status tracking (Approved/Rejected/Under Verification), reducing admin processing time by ~40% compared to manual workflows.
- Designed and managed **MySQL databases**, implementing optimized SQL queries for data retrieval, filtering, and reporting, improving efficiency by **40%**.
- Applied **OOP principles, MVC architecture, JPA, and Hibernate concepts** to develop scalable and maintainable application modules.
- Integrated email notifications and QR-code verification features, improving document traceability and verification accuracy by **95%..**

AI-Based Image Annotation & Tagging System | Java, JavaScript, HTML, CSS, MySQL | [\[GitHub\]](#)

- Designed and implemented an AI-driven image tagging engine in Java using iterative user feedback loops, automating ~60% of manual annotation tasks and improving labeling accuracy by 15% across 3 test cycles.
- Designed database structures and SQL operations for efficient data storage, retrieval, and metadata management.
- Implemented automated tagging mechanisms that reduced manual annotation efforts by approximately **60%**.
- Applied Java-based data processing and validation techniques, improving data accuracy by **15%**.
- Developed optimized search and filtering functionality, reducing image retrieval time by **30%**.
- Generated analytical reports and performance metrics to evaluate system effectiveness and dataset quality.
- Led usability testing sessions with a cross-functional team, releasing 3 iterative updates that reduced maintenance overhead by 20%.

WORK EXPERIENCE

Technical Support & Java Developer Intern — Cyprus Info Tech | Jan 2025 – March 2025 (90 Days)

- Developed and maintained responsive web application components using **React.js** and **Tailwind CSS**, improving user interface consistency and user experience.
- Assisted in building and testing backend APIs using **Java**, **Spring Boot**, **Spring Security**, and **JWT Authentication** for secure user access and data management.
- Designed and managed **MySQL** database tables, wrote SQL queries for data retrieval and updates, and ensured data integrity across applications.
- Collaborated with the development team in debugging, troubleshooting, API integration, and implementing new features following software development best practices.

Flutter App Development Intern — I-Tech Soft Solution | Aug 2024 (30 Days)

- Developed mobile UI interfaces using Flutter/Dart following Material Design guidelines; optimized state management to improve app performance and user experience.
- Completed full mobile app development lifecycle from UI design to deployment, gaining exposure to testing and debugging in a productionlike environment.

EDUCATION

M.Sc Computer Science — Sri Krishna Adithya College of Arts and Science | 2024–2026 | 84%

B.Sc Information Technology — Sri Krishna Adithya College of Arts and Science | 2021–2024 | 86%
